## Health Safety and Environmental Management The Compliance Consultancy

### Case Study Cardiff Council

### OHS Standard, Specialist and Health & Safety Training Providers for HANR

#### Background

OHS won the Tender to provide for Cardiff Council Housing Neighbourhood and Renewal Service training across key areas of the service area to meet the needs and priorities of the service and its staff.

The Council needed competent trainers with specialist knowledge and practical understanding of relevant issues relating to the topic areas including legislation requirements, Council Policy and Council procedures that apply.

Each course is based on:-

Generally a one day training or half day training session sometimes extend to 2 or 3 days as identified in the council documentation

The course content/criteria is effectively communicated including all legislative, policy and procedural requirements. Whilst all topics are covered,

Certain topics are tailored in accordance to the needs of the specific sections as and when required.

OHS Training providers are responsible for:-

Providing all training aides in terms of flip chart, pens, and copies of course materials for sessions including any necessary equipment to support the delivery of the course.

Providing details of the course programme and course brief so that this can be circulated to delegates prior to the day of the course

Evaluation/feedback on all delegates.

Keeping up to date with legislative changes that impact on courses and obtain copies of Council Policies and Procedures that relate to the course content.
