## Health Safety and Environmental Management The Compliance Consultancy

Case Study  
E C Harris

*'Delivering the vision'*

*An incident and injury free  
environment for all OHS  
clients*

**EC HARRIS**

The Management of Health and Safety by **OHS** is amongst the most extensive and thorough in the UK not only because of the knowledge and experience of their Consultants but due to their innovative Tracker Database and the depth of the Training that they offer to all clients.

**EC HARRIS**  
BUILT ASSET  
CONSULTANCY

As noted in the following case;

The overview of EC Harris is that many organisations are being forced to review their property strategy to survive, responding to market change presents an opportunity to realign a business strategy into a more adaptive and innovative model. EC Harris' international team of corporate real estate experts deliver solutions in an increasingly difficult market for the best value corporate real estate portfolios, creating an integrated strategy that reduces businesses property operating costs by up to 15%. Water Hygiene and Legionella Management is a major concern on all public sites.

EC Harris assigned **OHS** to undertake this vital role for their contract servicing Driving School Sites across the UK. The remit covers all Risk Assessments, Log Book Monitoring and Management of Remedial Work at all sites.

**OHS** were chosen for their expertise and knowledge in Water Hygiene and Legionella Management and for their ability to work to tight deadlines within agreed budgets. The existence of a Network of **OHS** Offices across the country and the **OHS** Reporting and Data retention Standards was also a factor.
