GOLDEN LANE HOUSING

Housing for people with
a learning disability

Overview;

OHS undertake many health safety and environmental projects for clients with large residential and social housing portfolios throughout the UK.

Established by Mencap in 1998, Golden Lane Housing was formed to help tackle the immense problems that people with a learning disability face when making choices about where, with whom and how they wish to live their lives.

Since inception, Golden Lane Housing has invested over £60 million transforming the lives of nearly 1,000 people by providing them with suitable supported living accommodation throughout England and Wales.

GLH helps people with a learning disability in a number of ways, including; providing high quality rented housing tailored to meet and individuals specific needs; family and shared ownership; helping families make long term plans through the use of legacies and family trusts; offering general advice and guidance.

Golden Lane Housing

working in partnership with 

Project;

- Asbestos awareness training
- Management surveys for 500 properties
- Providing action plans based of the finding of the surveys
- Liaison with various departments to co-ordinate access to various houses, residential supporting housing for people with mental health problems.
