Case Study  
Leeds College

Asbestos Management

OHS has a long term contract secured by tender to insure that Leeds College are compliant in the Management of Asbestos they also work very closely on health and safety management with the newly expanded college.

The college in 2009 merged Leeds College of Technology, Leeds Thomas Danby, Keighley College and Park Lane College Leeds to form one of the largest and most influential colleges in the country with over 60,000 students and an annual turnover of £70m

OHS operate a rigorous programme of surveying and auditing for the college and this is backed up by first class training of staff and by diligent reporting and data collation.

Areas covered by the contract include:

- Asbestos content
- Asbestos type
- Quantity
- Current condition of ACM
- Recommended action for their management
- Cross reference existing asbestos information and advice on what additional testing may be required
- Ensure that Project Completed Packs and updated survey reports are issued on completion of works
- Update Leeds College database with the relevant documentation
- Provide the Head of Estates with a monthly progress report
- Be available for general advice regarding projects and project meetings
- Write detailed specification for remedial works
- Obtain competitive quotations for asbestos removal
- Supervise and oversee the remedial works
- All Data Management in accordance with HSG 264 and HSG 227.
