

Health Safety and Environmental Management The Compliance Consultancy

Health Safety and Environmental Management The Compliance Consultancy

Case Study
Selfridges, Oxford Street London

OHS worked closely with Selfridges of London and assisted them in meeting their obligations under the Control of Asbestos regulations 2006. The flagship store is the second largest shop in the UK (after Harrods).

The services provided to Selfridges, in accordance with our Asbestos Knowledge chain.

1. Preparation of Asbestos Management Police
2. Desk top review of existing asbestos information held by Selfridges
3. An asbestos survey of the entire building and annual re inspections. Intrusive surveys prior to refurbishment or demolition works
4. Development of Asbestos Register
5. Development of an Action Plan and risk assessments for all Asbestos Containing Materials identified
6. Development of a Management Plan and safe procedures
7. Preparation of scope of works/technical specifications and tender documentation to facilitate asbestos abatement works
8. Project management of asbestos abatement works
9. Analytical monitoring and four stage clearance testing
10. Asbestos awareness training
