Health Safety and Environmental Management The Compliance Consultancy

Case Study

South London and Maudsley NHS Trust

South London and Maudsley NHS Trust is the Provider of mental health and substance misuse services in Croydon, Lambeth, Lewisham and Southwark; substance misuse services in Bexley, Greenwich and Bromley; and specialist services for people from across the U.K. A cross between a large local mental health trust and a teaching hospital, linked to a major international research institute and a provider of the most extensive portfolio of mental health services in the United Kingdom The Trust is a world leader in research, working in partnership with the Institute of Psychiatry, King's College London and is the largest mental health training institution in the country.

OHS have won the tender to carry out all Asbestos Management for SLaM within their 24 properties that include such diversity as hospitals, nursing homes and electric sub stations.

The contract is to carry out an asbestos survey to the properties as scheduled as specified in the HSE publication HSG 264 Asbestos: The survey guide 2010. The surveys are to identify the following:

- Locate ACM's and their function i.e suspended ceiling tiles
- Asbestos content
- Asbestos type
- Quantity
- Current condition of ACM
- Recommended action for their management
- Cross reference existing asbestos information and advice on what additional testing may be required
- Ensure that Project Completed Packs and updated survey reports are issued on completion of works
- Update SLaM NHS database with the relevant documentation
- Provide the Head of Estates with a monthly progress report
- Be available for general advice regarding projects and project meetings
- Write detailed specification for remedial works
- Obtain competitive quotations for asbestos removal
- Supervise and oversee the remedial works
- All Data Management in accordance with HSG 264 and HSG 227.
